Marketing Plan (1 month)

Quick summary of scope & constants

- Brand name: **LiLas**
- Package: **Silver** — 8 feed posts (2/week), 4 Reels (1/week), 18 Stories total, manage **Instagram + Facebook**.
- Core USP to lead with: **Yemeni single-origin coffee + naturally higher caffeine profile** positioned for **professionals & businesspeople**.
- Tone & voice: **Warm, confident, professional, premium but energetic**.

Brand Identity (must finalize before content production)

Logo concepts (deliver 3 directions to designer)

1. **Elegant wordmark**, high-contrast serif for “LiLas”, subtle curve in the L forming a steam line.
2. **Abstract emblem**, simple geometric mark (wave/roast flame) that reads as energy/steam; text lockup underneath.
3. **Monogram**, stylized “LL” that can form a small badge for social avatar/embossing.

Logo outputs required: horizontal primary, stacked secondary, mono (1-color), reversed, favicon (32×32), SVG and PNG.

Color palette (exact hexes)

- **Deep Espresso** (primary) — #36241F
- **Rustic Brown** (secondary) — #6B4F35
- **Warm Cream** (bg) — #F6EFE6
- **Soft Beige** (alt bg) — #EDE3D5
- **Warm Gold** (accent) — #C9A36F
- **Terracotta** (CTA accent) — #D9642A

Usage: Deep Espresso = headlines & hero backgrounds; Cream = main backgrounds; Gold = premium accents/foil; Terracotta = CTAs/buttons.

Typography

- **Headings:** Playfair Display (or similar serif)
- **Body:** Poppins or Montserrat (clean sans)
- **Accent/Handwritten:** a soft hand-drawn script (used sparingly for "Lilas' pick")

Voice / Messaging pillars

1. **Performance** “naturally higher caffeine profile” for focused work. (Phrase carefully; avoid medical claims.)
2. **Professional Ritual:** the “workday fuel” positioning.
